Five Rivers Cattle Feeding is the world's largest cattle feeding company with 11 feedyards in Colorado, Kansas, Oklahoma, Texas, Arizona and Idaho. We have a one-time feeding capacity of more than 985,000 head of cattle, market more than 1.8 million head of cattle per year and employ more than 600 people.

Five Rivers provides high quality cattle on a timely basis to processing facilities and other customers. Through our research programs, we actively improve our cattle feeding nutrition programs, production practices and operations to develop cattle that meet the needs of a wide range of specialty markets and customers.

We take pride in our safe, environmentally sustainable feedyard operations where the land and the livestock under our care are given first priority.
